

KAHNKE BROTHERS TREE FARM

Planting Contract

I, the customer, understand that I have paid a base rate for the installation of a set number of plants of specified sizes as indicated on my receipt. This rate is based on the assumption that the crew will be able to use a bobcat to move and install the plants. The crew must also have reasonable access to the locations where plants are to be installed. Slopes, fences, burms, etc. may require alternate methods of transport and/or installation. If crews are required to use a ball cart to move the plants or if they need to hand-dig holes for the plants, additional charges will apply. Removal of existing trees, living or dead, is not included in the cost of installation. All customers must agree to a site inspection before installation is scheduled. During this inspection, the site will be thoroughly assessed by a professional installer. If additional charges apply, a new contract must be signed before the installation is scheduled. By signing this contract, I attest that I understand the planting policy of Kahnke Brothers Tree Farm.

KAHNKE BROTHERS TREE FARM

Delivery Contract

I, the customer, understand that I am paying for the curbside delivery of the plants specified on my receipt. Plants will be placed along the curb or in an easily accessible driveway. Delivery does not include placing the plants in or near pre-dug holes. Drop-off areas must be free of obstacles and/or debris that would interfere with the crew's ability to unload the specified plants. Delivery charges are non-refundable once the plants are loaded. By signing this contract, I attest that I understand the delivery policy of Kahnke Brothers Tree Farm.
