

## Kahnke Brothers Tree Farm- Availability Information:

*Thanks for checking out our online potted tree catalog! There are a few things that you should know before you browse. Most of our potted trees are planted in small quantities, such as five or ten. We do this so that we can offer a nice selection. Everybody has different landscape needs, so having a large variety to choose from ensures that we will be able to find good options for everyone. Some of our trees will not be available for purchase until mid-August of 2010, others are available in short supply until that time. Those lists follow. We also have a few, single trees that are not in our catalog because we do not plan to re-stock them. I will make brief mention of those items too. Please refer to our "current availability" or call for exact quantities.*
